## Instructions:

1. Please be as specific as possible with size. '32 waist or size 6' is easier than 'Small.' Age is important even for adults as it provides a guideline.
2. Families can file as a whole. Please include ages of all children and number of adults in household. A family of four teens is different from four toddlers especially when it comes to food.
3. All attempts will be made to fill requests. Sometimes it just can't be done especially

for larger items. Please bear with us as we work through our learning curve.

4. All information will be kept strictly confidential.
